What animals do you think live here?
Put them into categories below.

Insects

Woodlouse

Mammals

Fox

Birds

Robin

2 The meadow

Find the meadow.

It is a chalk meadow.
Chalk is a type of material.

The chalk meadow is an important place
because it is a rare habitat.

The meadow is taken care of by the
Museum and is protected by the law.

Draw or write one plant you can see, and
one sign of an animal or insect living here.

Can you see any plants living here?

Can you see any signs of
insects or animals living here?

What would happen to this
habitat if humans built here?
