

Aquatic Insects

Explore the Museum pond

BOOK NOW
01494 875 542

The workshop explores the pond area at the Museum and helps children to discover the aquatic insects who live in this environment.

Exciting Workshop That Takes Children Beyond The Class Room

CHILTERN
OPEN AIR
MUSEUM
*Where buildings come
alive through history*

The workshop will take place outside Northolt Barn in our pond area and will last for 40 minutes.

For more information please contact a member of our Education Team
education@coam.org.uk 01494 875 542

Children will:

- Use magnifying glasses to look closely at their environment.
- Identify different creatures using a specialist key.
- Explore the different habitats of plant and animal life living around a pond environment.

As this workshop takes place in our pond please make sure that children are dressed appropriately.
